

Dishwasher Position

The James Bay Community School Centre is looking for a ceramic/flatware sanitation technician volunteer for our 55+ dinners.

Our fabulous cook does a great job of cooking up a mess of pots and pans and we are seeking a qualified or not so qualified sudsbuster to plunge in clean it all up.

We serve dinner to a group of happy diners twice a week and though some have been known to lick their plates clean, we do find that a bit of soap and a run through the sanitizer between uses is essential to the health and safety of all.

The pit technician is responsible for not only the cleanliness of all dishes, but should be good at puzzle solving as well. We do find, that our amazing cook prefers to not go on a scavenger hunt for her cooking supplies when everything has been put away in a new hiding spot. So figuring out what's behind cupboards and drawers will be essential to a happy cook.

Of course we know that hot soapy water and clean hands are not all that it will take to entice you to join our wonderful group of volunteers for these dinners, so our cook ensures that you get a tasty meal to take home at the end of your shift.

Our goal is to create an environment where "everyone knows your name", but also understands that they are a valued member of our team.

If you are interested in applying, please complete the Application Form.

Your completed form can be emailed, snail mailed or dropped off at the James Bay Community School Centre.
