

"HELLO!" FROM

Ms. Kaileen

MEET THE TEACHER

Hi! I'm Kaileen, your new pre-school teacher. I'm excited to get to know you and your child over the next year.

A bit about me:

I'm new to Victoria (originally from Edmonton, AB) so in my spare time you can find me exploring the Island or celebrating the fact that it isn't snowing. I'm also studying part time to complete my Psychology degree with plans to eventually specialize in Child and Family Counselling.

My experience lies heavily in the realm of neuro-diverse education as well as behaviour management. In previous years my work was adapting community programs to make them inclusive and working privately with parents to address problem behaviours. I'm eager to work closely with you on achieving milestones and goals that will not only set your child up for success as they go forward in their education but also translate to the home and make a lasting difference.

I guide with patience, compassion and curiosity with the goal of instilling confidence and kindness. I like to foster an open and collaborative teaching environment so please feel free to come to me with concerns, ideas or to simply say "hi" - I'd love to get to know you!

**SINCERELY,
KAILEEN CHISHOLM**
